NEVADA[®]

La Pintura Dorada

PRODUCT DESCRIPTION

Nevada La Pintura Dorada, is a precious, highly decorative paint that is inspired by the colours, contrasts and bright splendour of the region of Andalucia. Nevada contains golden droplets that are released by the passing over of the trowel and mixing with the coloured pigments give the surface an enchanting glow. Concieved for use in prestigious buildings and the interiors of villas and residences, Nevada gives an uncomparable, luxurious decoration that takes on a particular glow according to the type and level of illumination.

CHARACTERISTICS

Nevada la Pintura Dorada is an acrylic, decorative paint with special organic and inorganic pigments. Through the application, golden fragments and colours are fixed to the wall thus obtaining a highly prestigious finish. The product as with the entire Oikos production, is solvent free, non toxic and friendly to both humans and the environment.

Priceless walls with a touch of flair

Nevada La Pintura Dorada is a result of endless research by Oikos. Reasearch that eveolves technical aspects whilst not forgetting the analysis and study of decorative styles of the past. Nevada is inspired by the region of Andalucia, a unique place, where the presence of various civilisations and the natural beauty of the area have created a backdrop full of colour and intense sensations.

The light, the earth, the sunsets of Andalucia have been brought together in a product with an innovative formulation that offers the possibility to maximise decorative expression.

CHARACTERISTICS OF THE PRODUCT

- HIGHLY DECORATIVE
- CHIC COLLECTION OF COLOUR SHADES
- PRECIOUS GOLDEN REFLECTIONS
- NEW SENSATIONS
- LIGHT DARK EFFECT

The charm of gold

When simply colouring a wall is not enough, when even normal decorative products do not satisfy your requirements, when something extra is needed, Nevada, la Pintura Dorada offers a new range of possibilities.

Nevada, incredible possibilities for those who want to create a rich, charming interior.

Nevada looks to satisfy the most demanding requirements. When the aim is to give a setting a distinctly prestigious image, with a warm, elegant feel, different to the same old cold, sterile environments, Nevada is the answer. All the splendour of gold, combines with the most beautiful colour shades to create a unique finish that transforms walls into a precious work of art.

In this photographic print reproduction, it is not possible to render the golden droplets present in the product. Check the real effect in the live colour chart.

ONKOS does not accept responsibility for eventual claims for colours that have been chosen from this colour chart. It is advisable to check the chosen colour by means of a live sample. Production covered from EPO 121694 License.

Gold and splendid colours for walls a class above the rest

From years of research by Oikos comes a unique paint

Whoever is searching for a fabulous decorative solution, that on its own valorises an environment, finds in Nevada all the answers.

But behind such a success is all of Oikos's experience and tradition.

The company has done all it can over the last twenty years to discover, valorise and reproduce the decorative tendencies that characterise the multitude of mediterranean civilisations and cultures, but always by means of a highly eco compatible production with low or zero environmental impact.

The desire was to create a solvent free paint, in full respect of nature and with a double objective: to preserve the company tradition of eco-compatibility whilst presenting a product that offers an effect that is inspired by the Spanish culture and bring it to the walls of houses all over the globe, with the light, the sun and the warmth of the region of Andalucia. The result is Nevada, a unique and extraordinary product.

How you achieve the Nevada effect

The product is spread using the indicated Spanish brush by Oikos, with a careful and even application. With the successive passing of the inox steel trowel that squashes the product without removing it, Nevada is able to express all of its potential: thousands of fragments are crushed, releasing into the surface a myriad of golden pigments.

In the colour chart it is possible to admire the range of colours capable of transmitting new sensations to walls, through golden shadows, to the light dark effect, from the exquisite colour shades to the impressive gold reflections that enhance any environment. Unfortunately the reproduction through the print process is not able to fully render the extraordinary effect of the gold in Nevada, that it is possible to admire in the love sample colour chart.

Nevada is also a technically perfect product: it is washable, water repellent, scratch resistant and helps to prevent the formation of mould and algae.

An atmosphere with a new light prospective

IDEAL USES

INTERIORS

- NOBLE PALACES
- MODERN SPACES
- PRESTIGIOUS LOUNGES
- RESIDENTIAL BUILDINGS
- HOTELS AND APARTMENTS
- RESTAURANTS
- PUBS, SHOPS AND BOUTIQUES
- BEAUTY FARMS AND WELLNESS CENTERS
- TOURIST CENTERS AND HOLIDAY VILLAGES

Every element becomes "a work of art"

Simple architectural elements such as columns, corniches and vaulted ceilings that occasionally can represent an eyesore, once treated with Nevada take on a light and value thus substantially contributing to furnishing an environment.

Gold for walls

It is however on the wall that Nevada expresses all its decorative potential. Varying the light, the golden fragments of Nevada illuminate and valorise the aesthetic appearance of any setting.

The abundant choice of colours in the colour chart allows a wide choice of applications that can be coordinated within an interior project, highlighting the furnishings and giving the environment a finish of great importance.

The charm of a unique and incomparable decoration

A unanimous verdict

Among the first people to appreciate the value of Nevada were architects involved in interior design. The interest created by Nevada and by the so called "lapislazuli effect" was immediate.

Today Nevada is a superb protagonist of a multitude of applications all over Europe, Messico and the Middle East, and in many other parts of the world.

The "masterly hand" of the applicator

Nevada expresses all its potential by means of a professional application. The commitment of Oikos to valorising the craftsmans profession is nowadays of common knowledge. The company periodically organises up dated application courses Demonstrations and examples of the application method are also organised at Oikos retailers.

technical data sheet TDL/do/02

Nevada La Pintura Dorada

Technical characteristic

NEVADA la Pintura Dorada by OIKOS is a decorative paint that unites colours, contrasts and decorations with a golden finish that give walls an enchanting appearance. Thousands of tiny paint droplets that break as the trowel passes over them and that due to a strange type of magnetism, are transformed into a blend of gold tinged colours. Thanks to its formulation and to the particular pigments used, it is possible to admire the vast range of colours that are able to transmit new sensations to walls, from golden shadows to the stupendous m el e of gold that brings precious reflections to the environment.

NEVADA la Pintura Dorada is washable, water repellent, scratch resistant and helps prevent the formation of mould and algae; it is particularly indicated for the decoration of surfaces in prestigious settings such as villas, noble palaces, offices and elegant lounges, appartaments and boutiques. Easy to apply, NEVADA allows long open working time thus avoiding problems of joints and imperfections. The product is free of toxic solvents aromas and chlorides. It is friendly to both humans and the environment.

Ideal use

Interior surfaces in all kinds of buildings both historical and modern.

Surface preparation

New surfaces should be thoroughly dry and mature. On old walls or previously painted surfaces, remove all deposits of smog, dust or other dirt by means of washing and scraping. Remove any loose or crumbling material and follow this by applying, if necessary, a coat of the special fixative NEOFIX by OIKOS. Wait 4   6 hours until dry.

Apply one or two coats of FONDO MURALES by OIKOS as a base coat. Wait 6   8 hours until dry.

Application method

Apply NEVADA la Pintura Dorada using the indicated Spanish Brush by OIKOS crossing over the brush marks, immediately pasas back over with the brush but with no product on it, in order to even out the distribution of the product on the surface. After 5   10 minutes pass over the surface, applying light pressure withan inox steel trowel OIKOS squashing the product without removing it.
